Dr. Tara Dall
Advanced Lipidology
524 Milwaukee Street, Suite 180
Delafield, WI 53018

Dear Dr. Dall:

I am writing this letter to express my sincere gratitude for the services you have provided me, the community and your profession.

On November 25, 2008, I suffered a heart attack and coded twice before stents were placed in my arteries at Waukesha Memorial Hospital. Although I really didn't think much about my lifestyle prior to the heart attack, I soon learned what adjustments were needed to live a better quality of life. The life changes involved diet, exercise and medication.

My primary doctor from Prohealth Care Scott Strehlow suggested I consult you to manage my progress and provide treatment for medication to correct imbalances. This advice proved to be one of the most beneficial things I could have done in addition to the diet and exercise regimen. I had no idea that there were so many components involved, and how they interplayed in my recovery.

After our testing, you discovered several deficiencies and prescribed the proper medication to reduce my skyrocketing LDL cholesterol by 54%, improve my HDL cholesterol by 18%, lower my triglycerides to a respectable level, decrease my overall cholesterol 76%, correct my vitamin B12 and vitamin D deficiencies, and correct my thyroid problem.

Now that these areas are being monitored, I can get back to a lifestyle that will improve my health with diet and exercise. I have told numerous people about your clinic and have highly encouraged them to talk to their physician about seeing you. I can't begin to thank you enough for helping me, and for your commitment to the profession and to the community.

Sincerely,

Timothy M Gorsuch
